## MvPI Internship-cum-training program conducted for the interns (Batch April to June).

NCC-MvPI team conducted a training program for the new batch of MvPI-Interns. A total of 8 sessions were conducted from 4 April, 2025 to 24 April, 2025. Topics covered- Overview of Materiovigilance Programme of India (MvPI) and roles and responsibilities of trainees, Concept, Terminologies and How, what, where and when to report, Modalities to report Medical Device Adverse Events under MvPI through the Adverse Drug Reactions Monitoring System (ADRMS) and the reporting of adverse events associated with medical devices classification, Hands on Training: Group Exercises including case studies and decision tree-Reportable and non-reportable events, Medical Device Rules, 2017: Schedules & Chapters, Risk based classification of medical devices, Roles & Responsibilities of Central Licensing Authority & State Licensing Authority, Causality Assessment & Level of Causality, MDAE Cases: Exercises & Practice. These sessions were conducted by Ms. Jessica Joy, Dr. Josmy Maria Job, Mr. Sandeep Mewada and Mr. Somesh Shukla (Jr. Materiovigilance Associates).

### Training Programme at Moreau Institute of Integral Training, Dhankheti Malki, Shillong.

On April 10, 2025, National Coordination Centre- Materiovigilance Program of India (NCC-MvPI) conducted a training programme on “Promoting medical device quality and protecting patient safety” at Moreau Institute of Integral Training, Dhankheti Malki, Shillong. The session focused on educating healthcare professionals about the importance of identifying and reporting adverse events related to medical devices including in-vitro diagnostics (IVDs). An informative session by **Dr. V. Kalaiselvan**, Senior Principal Scientific Officer, IPC on “Medical Device Safety Surveillance

System in India-Materiovigilance Programme of India (MvPI)” was delivered followed by **Dr. Shatrúnajay Shukla**, Scientific Assistant, IPC presented on “Reporting modalities under Materiovigilance Programme of India”. The training also included a hands-on interactive case study exercise to reinforce practical application conducted by **Mr. Naveen**, Scientific Assistant, IPC.

### North-Eastern States of India at All India Institute of Medical Science (AIIMS), Guwahati.

On April 12, 2025, National Coordination Centre- Materiovigilance Program of India (NCC-MvPI) conducted a training programme on “Strengthening of Materiovigilance Programme of India in North-Eastern States of India” at All India Institute of Medical Science (AIIMS), Guwahati, Assam. There were 50 participants who attended this session. **Dr. V. Kalaiselvan**, Senior Principal Scientific Officer, IPC presented a session on “Medical Device Safety Surveillance System in India-Materiovigilance Programme of India (MvPI)”.

**Dr. Shatrúnajay Shukla**, Scientific Assistant, IPC, also delivered a session on “Reporting Modalities under Materiovigilance Programme of India”. **Mr. Naveen V.**, Scientific Assistant, IPC, delivered an engaging session in which he presented various parameters for establishing causality assessment between a suspected medical device and an adverse event in detail. To reinforce the learning experience, a team exercise with a help of case study was also conducted.

### Sensitization Program at Dermatology & Dental Wards at All India Institute of Medical Science (AIIMS), Bhopal

On April 21, 2025, National Coordination Centre- Materiovigilance Program of India (NCC-MvPI) conducted a sensitization program at All India Institute of Medical Science (AIIMS), Bhopal for healthcare professionals including doctors, nurses, pharmacists, biomedical engineers, etc. Mr. Mohd. Faizan, Materiovigilance associate sensitized the participants related to medical devices and Materiovigilance Program of India (MvPI).

### Workshop on Materiovigilance Program of India (MvPI) for Promoting Safety of Medical Devices at All India Institute of Medical Science (AIIMS), Gorakhpur.

On April 22, 2025, National Coordination Centre- Materiovigilance Program of India (NCC-MvPI) conducted a workshop on Materiovigilance Program of India (MvPI) for promoting safety of medical devices. **Dr. V. Kalaiselvan**, SPSO, MvPI, IPC virtually delivered a presentation on “Medical device safety surveillance system in India”. He emphasized MvPI's significant contribution to enhance patient safety and strengthening regulatory oversight within the healthcare sector. **Dr. Shatrúnajay Shukla**, SA, MvPI, IPC physically attended the programme and also

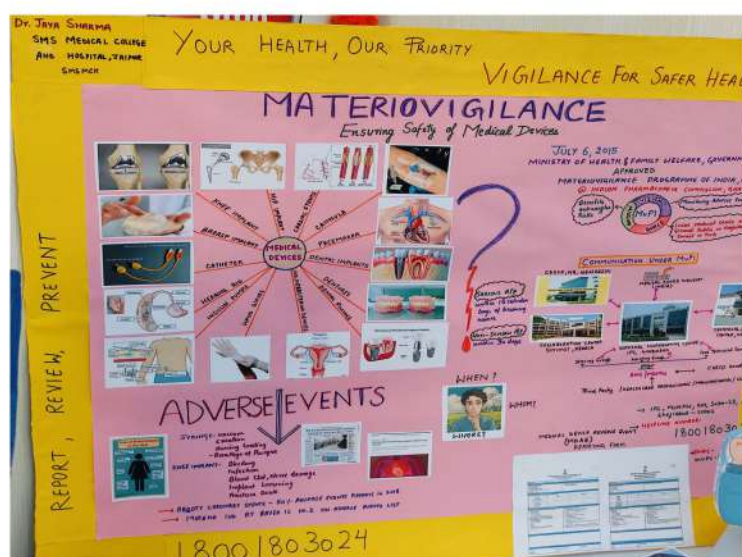

delivered an informative session on “Reporting modalities under Materiovigilance Programme of India”. The training also included a hands-on interactive case study exercise to reinforce practical application conducted by Dr. Mousumee Panigrahi, Assistant Professor, AIIMS Gorakhpur.

## The Health Mela on the topic "A Step Toward Safer Healthcare: Materiovigilance Outreach" held at Jai Club, Jaipur

The Health Mela held at Jai Club, Jaipur, on April 26 and 27, 2025, brought together healthcare organizations, professionals, and the public for health awareness activities, screenings, and educational sessions. Under the leadership of Dr. Monica Jain, Additional Principal, S.M.S. Medical College and Hospital, Jaipur, the Department of Pharmacology made a significant contribution to the event by organizing a dedicated stall that highlighted various programmes, diseases and their respective treatments. Dr. Jaya Sharma, Ph.D. Scholar, S.M.S. Medical College and Hospital, Jaipur, under the guidance of Dr. Monica Jain, led a dedicated project on Materiovigilance, which focused on raising public and professional awareness about "Ensuring Safety of Medical Devices".

Through educational posters, interactive discussions, and distribution of informative brochures, Dr. Monica Jain and her team successfully engaged a diverse audience. Dr. Jaya Sharma highlighted various channels through which the medical device adverse events can be reported and special emphasis was placed on encouraging proactive reporting of device-related incidents, fostering a culture of vigilance and responsibility to improve healthcare outcomes. The public response to the initiative was overwhelming as before they were not aware about the Materiovigilance Programme.

The event was honoured by the presence of Shri Prem Chand Ji Bairwa, the Deputy Chief Minister of Rajasthan. He visited Department of Pharmacology section. After a detailed briefing on the Department's initiatives in Materiovigilance, he commended the team for their dedicated efforts toward promoting device safety awareness. He also praised the department's proactive approach in educating the community about the importance of adverse event reporting and highlighted the crucial role such initiatives play in strengthening public health systems.

### First Advance Level Training cum Coordinators Meet on Materiovigilance conducted by J. N. Medical College & Hospital, Aligarh Muslim University, Aligarh.

On May 6, 2025, Jawaharlal Nehru Medical College & Hospital (JNMCH), Aligarh Muslim University (AMU), Aligarh conducted the First Advanced Level Training cum Coordinators Meet. **Dr. V. Kalaiselvan**, SPSO, IPC attended the session through virtual mode. **Mr. Naveen V**, Scientific Assistant delivered the session on the “Overview of the MvPI” and emphasised the significance of reporting adverse events related to medical devices, followed by various engaging session from experts in healthcare fields were present. Mr. Somesh Shukla, Jr. MvA, also attended the event and addressed concerns regarding medical device adverse events and ADRMS.

### Sensitization Program at Yashodhara Cancer Hospital, Bhopal.

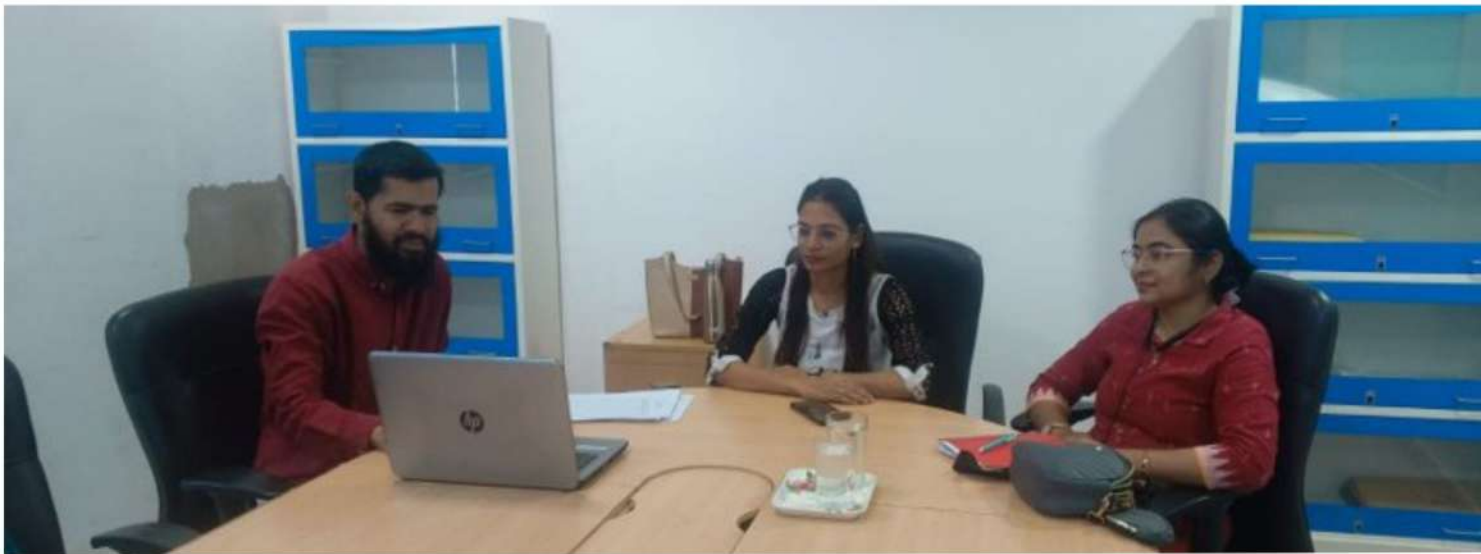

NCC-MvPI conducted a sensitization program at Yashodhara Cancer Hospital, Bhopal on May 12, 2025. MvPI associate Mr. Mohd. Faizan sensitized the healthcare profession including nursing staff, pharmacists, and technicians regarding Materiovigilance Program of India (MvPI) on the occasion of World Nursing Day. A total of 17 participants attended the session.

### Hands-on training programme at All India Institute of Medical Sciences (AIIMS), Bhopal.

On May 14, 2025, professors from People's Medical College, Bhopal visited the AIIMS, Bhopal. MvPI associate Mr. Mohd. Faizan provided the training to the staff of People's Medical College, Bhopal on how to enroll as Medical Device Monitoring Centre (MDMC) under MvPI. He also provided hands on training on collection and reporting of Medical Device Adverse Events (MDAE).

### ICMED 13485 Certification Audit

The ICMED 13485 certification audit, conducted on May 15, 2025, was executed seamlessly, adhering to the predefined schedule. The audit team, comprising a Lead Auditor, a trainee auditor, and a technical expert specializing in sterilization, meticulously scrutinized critical operational areas. The Stage 1 audit was successfully completed, with key observations documented and further clarifications obtained through collaborative engagements with relevant departments. Additional documentation was gathered for in-depth analysis. The next phase involved the finalization of the comprehensive audit report. The audit process is progressing with precision and remains firmly on track for timely completion.

### **Sensitization Program at SNCU Ward and Urology Ward, Hamidia Hospital, Bhopal.**

On May 16, 2025, NCC-MvPI conducted a sensitization program at SNCU Ward and Urology Ward, Hamidia Hospital, Bhopal. The training session was conducted by Mr. Mohd Faizan, MvPI associate, on Materiovigilance Program of India (MvPI). The session also included discussion on quality issues related to surgical and other medical devices. A total of 14 healthcare professionals including Junior Residents, Senior Residents, Nursing Officers and Senior Nursing Officers attended the session.

### **Sensitization Program at Psychiatry Ward of GMC and Hamidia Hospital, Bhopal.**

NCC-MvPI conducted a sensitization program on May 23, 2025 at Psychiatry Ward of GMC and Hamidia Hospital, Bhopal. The session was conducted by Mr. Mohd Faizan, MvPI associate, about the Materiovigilance Programme of India (MvPI) and reporting of Medical Device Adverse Event (MDAEs).

### ICMED Certification Renewal – (IPC-MDD)

The office assessment for the renewal of ICMED certification took place on May 28 and 29, 2025 by the Quality Council of India (QCI). Led by a Lead Auditor and supported by a technical expert, the audit team conducted a rigorous evaluation of all pertinent ICMED documentation.

### Distinguished Guest Lecture Series on “Advancing Materiovigilance and Pharmacovigilance through Strategic Partnerships and AI”.

NCC-MvPI successfully conducted a highly engaging and informative guest lecture series on “Advancing Materiovigilance and Pharmacovigilance through Strategic Partnerships and AI” on June 5, 2025. Two distinguished experts from the materiovigilance and pharmacovigilance industry delivered thought-provoking sessions during the event. Mr. Gurpreet Singh, Vice President and Managing Director Integrated Safety at IQVIA, presented on “Global Pharmacovigilance – Strategic Partnerships & Digital Transformation” and Dr. Tarunjot Singh, Director of Safety and Pharmacovigilance at Syneos Health, UK, delivered an impactful presentation on “The Impact of Artificial Intelligence on Materiovigilance & Pharmacovigilance—Including Case Studies.”

The sessions covered critical themes such as AI-driven data analytics, predictive safety models, global compliance, and the integration of digital tools for improved patient safety outcomes. Attendees gained valuable knowledge on the practical implementation of AI in regulatory sciences, as well as future trends and challenges in the field.

The event witnessed enthusiastic participation, with a total of 114 attendees actively engaging in discussions and Q&A sessions, reflecting the growing interest in the convergence of technology, materiovigilance & pharmacovigilance.

### International conference on global health and emerging challenges organised by Al Shifa College of Nursing, Perinthalmanna in collaboration with AIMST university, Malaysia .

On June 9 & 10, 2025, Al Shifa College of Nursing in collaboration with AIMST university, Malaysia had organised an International Conference on “Global health and emerging challenges”. Dr Saikeerthana PC, Assistant Professor, Alshifa College of Pharmacy, on behalf of our regional training centre received First Prize in paper presentation titled - “Materiovigilance - Global challenges”.

### Materiovigilance Sensitization Programme

On June 17, 2025, Al Shifa College of Paramedical Sciences, in collaboration with Materiovigilance Regional Training Centre, Al Shifa College of Pharmacy, organized a sensitization programme on Materiovigilance. The event was inaugurated by the Principal, Prof. Dr. Sudheesh K.

- Dr. Pallavi P, Associate Professor, introduced the concept of Materiovigilance, emphasizing its importance in monitoring the safety and performance of medical devices.
- Dr. Sai Keerthana PC discussed the procedures for reporting and analyzing adverse events related to medical devices, highlighting the role of healthcare professionals in ensuring patient safety.
- Ms. Shareefa K covered the various reporting modalities and shared key case studies to illustrate the significance of timely and accurate reporting.

The programme witnessed active participation from 150 students, who expressed positive feedback about the sessions. The sensitization programme effectively enhanced awareness about the importance of monitoring medical device safety among students. Such initiatives are crucial in fostering a culture of safety and vigilance in healthcare settings.

### ***Dr. P Unneen***

*Managing trustee, Alshifa College of Pharmacy  
Vice Chairman and Executive Director,  
KIMS Alshifa Hospital, Perinthalmanna,  
Malappuram Kerala*

Materiovigilance is an evolving field, and I am pleased to see the MVPI team at IPC taking proactive steps to promote medical device-related activities across India, with a clear commitment to enhancing the quality of patient care.

It is my privilege to note that our institution, Al Shifa College of Pharmacy, has consistently been at the forefront of upholding high professional standards, and this initiative is yet another testament to that commitment. I am confident that the insights shared in this newsletter will offer valuable information to its readers. Healthcare professionals across the country should join hands to support and strengthen this noble cause.

I also take this opportunity to congratulate the editorial team for successfully bringing out the latest issue of the newsletter in such an informative and engaging manner.

It is a great pleasure to contribute a message to the IPC newsletter, and I wholeheartedly appreciate IPC's continued efforts in taking Materiovigilance to greater heights.

## Feedback on MvPI

**Harshpreet Kaur**  
PGIMER  
Chandigarh

As a part of my contribution to the Materiovigilance Programme of India (MvPI), I have actively participated in data collection and reporting from the MDMC center at PGIMER, Chandigarh. As of April 30, 2025, I successfully submitted 132 reports, followed by 80 additional reports from May 01 to May 31, 2025. Furthermore, I have compiled and submitted 30 reports from June 01 to June 18, 2025. A dedicated session on MvPI

(Materiovigilance Programme of India) and PvPI (Pharmacovigilance Programme of India) was also conducted. This session helped deepen my understanding of the importance of vigilance in healthcare, including the mechanisms of adverse event reporting, regulatory

frameworks, and the role of various stakeholders such as healthcare professionals, industry, and regulators in ensuring patient safety. It highlighted the interrelationship between pharmacovigilance and materiovigilance in improving the post-market surveillance of medicines and medical devices in India.

My ongoing internship under the Materiovigilance Programme of India at All India Institute of Medical Sciences (AIIMS), Gorakhpur has been an enriching and insightful experience. The structured environment and supportive mentorship have enabled me to develop essential skills in medical device safety and adverse event reporting. I am thankful for the opportunity to enhance my practical knowledge and contribute meaningfully to patient safety and healthcare quality.

**Abhay Pratap Singh**  
AIIMS  
Gorakhpur

**Abhay Kushwah**  
AIIMS  
Gorakhpur

My internship under the Materiovigilance Programme has been a highly rewarding experience. The work environment is supportive and well-structured, allowing me to learn new skills and gain hands-on exposure to medical device safety and reporting. I am grateful for the opportunity to grow professionally and contribute to such an important area of healthcare.

## IPC-MvPI as a Certification Body

### Indian Pharmacopoeia Commission (IPC) as Certification Body for ICMED 9000/13485 Schemes

IPC is an Autonomous Institution of Ministry of Health and Family Welfare, Government of India.

#### PRODUCTS & SERVICES

- Periodic publication of Indian Pharmacopoeia
- Periodic publication of National formulary of India
- Preparation & distribution of IP Reference Substances (IPRS) & Impurity Standards
- National Coordination Centre for Materiovigilance Programme of India (MvPI) and Pharmacovigilance Programme of India (PvPI)

#### ICMED 9000/13485 CERTIFICATION

ICMED (Indian Certification of Medical Devices) is a quality certification scheme, jointly owned by QCI & AIMED for medical device manufacturers in India, ensuring compliance with both Indian regulatory requirements and international standards.

#### PURPOSE

The purpose of ICMED certification is to ensure that medical devices meet stringent quality and safety requirement mentioned in India MDR & International Standards, thereby enhancing trust and reliability in medical devices being manufactured.

#### BENEFITS

- Ensure regulatory compliance as per India MDR & International Standards
- Ensure Product Quality
- Enhancing Consumer Confidence
- Better Market Access
- Competitive Advantage

# MvPI Network Pan India

Under the Materiovigilance Programme of India (MvPI), **596** Medical Device Adverse Event Monitoring Centres (MDMCs) have been enrolled, comprising both government and non-government hospitals. The participation of both government and non-government hospitals in MvPI highlights the collaborative effort to uphold medical device safety standards nationwide. These centres play a crucial role in ensuring the safety and efficacy of medical devices used in healthcare settings. By enrolling MDMCs across a wide spectrum of healthcare providers, MvPI aims to comprehensively monitor the performance of medical devices, facilitate early detection of adverse events, and ensure prompt reporting and appropriate action to enhance patient safety and healthcare quality.
