OBJECTIVE

The objective of the webinar is to create awareness about the regulation and safety surveillance system of medical devices in India among Biomedical Engineers in reporting adverse events linked to medical devices in Materiovigilance Programme” in order to promote the safety of medical devices.

BACKGROUND

Indian Pharmacopoeia Commission (IPC), an Autonomous body under Ministry of Health and Family Welfare, Government of India, has entrusted with National Coordination Center (NCC) responsibilities related to Materiovigilance Programme of India (MvPI) since 2018 with an objective to improve Indian patient safety by monitoring, recording and analyzing the root cause of adverse events or risks associated with the use of medical devices and suggesting regulatory bodies for appropriate action with the sole intention of improving patient safety. MvPI program aims to promote and facilitate adverse event reporting of medical devices and subsequently evaluating these events.

Who can attend?

Biomedical Engineer & other Healthcare Professionals.

OUTCOME

- ***Make Biomedical Engineers aware and understand about the Materiovigilance Programme of India.***
- ***To provide training on available modalities to report medical device associated with adverse events.***
- ***Seeking suggestions/inputs from Biomedical Engineers for effective implementation of Materiovigilance Programme in the Hospital.***
