

Inauguration Ceremony

For Seventh Training Programme on Various Analytical Instruments and Techniques for Government Drugs Analyst

The Inaugural ceremony of the Seventh training program on analytical instruments was commenced with the lighting of lamp by IPC Scientists. The program was graced by the presence of chief guest Dr. A.K. Pradhan, DDC(I) CDSCO, North Zone, Ghaziabad. Total no. of 40 participants from 17 different states all over the country was registered for training program.

Dr. Meenakshi Dahiya, Senior Scientific Officer, IPC formally welcomed all the dignitaries present on the dais and participants from various parts of the country, and colleagues. She mentioned about the significance of analytical instruments and the different methodologies adopted for drug testing in the country. The training program aimed about bringing together a core group of drug analysts and researchers from all over India with a significant participation of analysts from Indian Pharmacopoeia Commission (IPC), Ghaziabad. The opening ceremony was graced by the presence of **Dr. A.K Pradhan**, DDC(I), CDSCO, north zone, Ghaziabad. He inspired the participants by his motivational speech. The vote of thanks was given by Dr. Jai Prakash, Senior Principal Scientific Officer, IPC.

Pre-assessment exam was carried out to evaluate the pre-existing knowledge of the participants.

Dr. P.K. Jaggi, Ex-Head of office and licensing authority, Delhi delivered a lecture on regulatory aspects relating to receipt, Handling and reporting of samples.

The Training programme will cover presentations from experts across the country and hands on training on advance analytical instruments including industrial visits for practical exposure.
